TOBACCO GROWERS' DETERMINED DRIVE.

The solicitors in charge of the tobacco growers drive to sign up seventy-five per cent of White Burley Tobacco grown in this county in the Burley Tobacco Marketing Association, are meeting with great success, and they feel confident that Bourbon County will be the first Kentucky Burley producing County to sign up its full quota in the new association.

The solicitors, headed by Mr. Jim M. Caldwell, visited the Little Rock neighborhood, Thursday and Friday, and although unable to quite cover the territory, secured more than 90 per cent. of the acreage in this locality.

The undertaking is a laborious one, and will take the solicitors several days to cover the county, but the job is in the hands of tried and determined men, who have always been successful in every drive undertaken in Bourbon County, and they feel confident of completing the work in record breaking time.

The tobacco growing farmer is face to face with a serious situation, with his crops burning up for lack of rain, the ruinous prices being paid for cattle and other live stock, and everything he buys to run the farm costing almost prohibitive prices, he must come to a realization that as others have banded together for protection, so must he.

Their Troubles Ours.

Bernard M. Baruch is not a farmer making complaint or a business man who has a sentimental interest merely in farming and farmers. He is a business man who recognizes the ultimate sources of welfare, and who reveals himself in an article in the Atlantic Monthly in which he says: "We all flourish or decline with the farmer. So, when we of the cities read of the present universal distress of the farmers, of a slump of \$6,000,000,000 in the farm value of their crops in a single year, of their inability to meet mortgages or to pay current bills and how, seeking (Continued on Page 2.)

REPUBLICANS CANNOT TAKE PART IN PRIMARY

According to the wording and intent of a series of resolutions adopted at the meeting of Democratic County Committee, held at the court house in this city, Friday afternoon, only known Democrats and those who voted for the party's nominees at the last election, may participate in the Democratic primary to be held on Saturday, August 6. The resolutions were adopted without a dissenting vote, and effectually disposed of a matter that has been under discussion for some time.

The meeting was called by County Chairman W. D. McIntyre. A list of names, comprising eight from each precinct in the county, was presented to the Committee, from which election officers will be chosen to conduct the primary. These names will be selected and announced at a meeting to be held to-morrow, (Wednesday) afternoon, in the court house, and will be turned over to the Election Commissioners for action. The resolutions as adopted are as follows:

"Whereas, Section 1550, Sub-Section 19, of the Kentucky Statutes prescribes the qualifications of legal voters in primary elections, and further provides that only those who possess such qualifications shall vote in such primary election, and

"Whereas, it is provided by said section that a person must be prescribed by the constitution to vote in regular elections, and in addition thereto, provides as follows: 'He shall, in addition to said qualifications, be a member of the party for whose nominee he intends to cast his vote, and shall have affiliated with said party and supported its nominees and no person shall be deemed to have affiliated with the party in whose primary he seeks to cast his vote if he voted against the nominee or nominees of such party at the last general election, and'

"Whereas, there are many persons in Bourbon county of uncertain and unknown party affiliation who are threatening to vote in the coming primary election on August 6, 1921.

"Now, Therefore, Be It Resolved by the Democratic Committee of Bourbon County that it is not deemed best for the welfare and best interests of the Democratic party that any person be permitted to vote in said primary except those possessing all of the election qualifications of voters on said election day and who are well known Democrats in the county.

"Be It Further Resolved, that all well-known Democrats who intend to support the nominees of this primary are invited to participate in the same."

MONTGOMERY COUNTY FAIR

The Montgomery County Fair opens at Mt. Sterling, Wednesday, with a large attendance, Paris and Bourbon county being well represented in the crowd.

The first race on the program was won by S. Kenney Nichols' Maysville, winning by a few inches from Madame Byng. The Mt. Sterling Derby, at a mile and one-sixteenth, the feature of the opening day, was captured by Mazola, an outsider in the betting, paying \$47.40 for a \$2 mutual ticket.

An interesting program was presented on the opening day, and again the remaining days. Bourbon county was largely represented.

The following Lexington officials, en route to the Fair in a seven-passenger auto, stopped over at the Xalapa Farm a short time Wednesday. City Treasurer Charles Hanson, City Collector Wm. H. Settle, City Assessor James P. Kearns, City Delinquent Tax Collector Wallace Muir, Commissioner of Public Finance J. O'Brien.

CONSCIENCE STRICKEN PARTY RETURNS TOOLS

A troubled conscience impelled some unknown person recently to return to A. B. Perkins, of the Bourbon Garage, a box of tools by express. When Mr. Perkins received the box he was at a loss to account for it, as there was nothing to indicate from whence it had come, nor any clue as to the identity of the party sending it. The next day he was relieved to receive a letter, unsigned, which at least solved a part of the mystery. The letter was as follows:

"I am sending you a box of tools in two lots. I borrowed the use of the tools until I had made money enough to buy a new set, but I find I could not keep yours and prosper. So, in order to prosper, and clear my conscience, I am sending your property back to you. I appreciate the past favors you have shown me and wish you a prosperous future."

Mr. Perkins was able to identify the tools as property of the Bourbon Garage, but is unable to form any idea of the identity of the party returning them to him.

GOOD ARGUMENT FOR TOBACCO MARKETING PLAN

One of the best arguments in favor of Bourbon county tobacco growers signing the Co-operative Burley Tobacco Marketing contracts is the state of the markets in South Carolina, which opened some time ago, which nearly always serve as a pointer for the Kentucky markets. There when the plan was not in effect the markets went to pieces at the opening. The prices received averaged only ten cents for the better quality, as against twenty-five cents for the same quality at the sales last year. Some crops that averaged twenty-five to twenty-seven cents last year only brought about seven cents this year.

Do the tobacco growers and farmers of Bourbon county want to see this condition obtain here this year at the opening of the markets? Don't they remember the slump of last year? Then they ought to be in hearty accord with the Co-operative Burley Tobacco Marketing Association's plan, and everyone of them ought to sign the contract, if only for their own protection.

\$47,000 PAID IN AUTOMOBILE LICENSE FEES.

Last week the State Automobile Department, at Frankfort, collected fees \$20,751.38 and \$27,335.17 in five per cent. commissions. The five per cent. commissions had been retained by clerks pending the suit to test the law allowing clerks five per cent for issuing licenses, the clerks contending that they were entitled to collect the commission in addition to the compensation allowed by law for issuing automobile licenses. The Court of Appeals recently held that the clerks were not entitled to the fee.

CORNERSTONE LAYING OF MILLERSBURG MILITARY INSTITUTE.

KENTUCKY MOTOR CLUB SEEKS MEMBERS HERE

CENTRAL KENTUCKY MILLERS WILL MEET THURSDAY

The ceremony of laying the cornerstone of the new dormitory of the Millersburg Military Institute will be observed at Millersburg at two o'clock on Friday afternoon, July 29. Suitable exercises of an interesting nature have been arranged by the Entertainment Committee for the occasion.

The principal speaker of the day will be Dr. A. W. Fortune, of Lexington, and several short addresses will also be delivered by the different heads of the various schools of the kind. The music will be furnished by the Bourbon Orchestra, of Paris.

Those in charge of the exercises are going to make this one of the best and most enjoyable events in the history of the town. The public is invited to be present. Considerable progress has been made with the work on the new school building. The new dormitory now being erected will be modern and convenient in every respect, and all of the improvements on the old building will be in keeping with the plans of the Institute. The athletic field and drill grounds will be one of the best in the State. All these improvements will be completed in ample time for the opening of the school in September.

The business here of these men will be of special interest to Paris and Bourbon county, as hundreds of tourists weekly are being routed by this club from Louisville to Cincinnati and points east over what is known as the L. L. L. Route (3 L) which passes through Shelbyville, Frankfort, Versailles, Lexington, Paris, Cynthiana, Falmouth and Latonia. The route derives its name from the three cities beginning with the letter "L," namely Louisville, Lexington and Latonia.

The "L. L. L." Route is now being banded by a crew band having worked as far as the Woodford county line and will continue pole banding following closely behind Allen and Hodgson.

Lets everybody get together and pull for better and more roads for Paris, Bourbon county and Kentucky. By giving these gentlemen your hearty co-operation and membership will do more towards securing good roads than anything else.

"Be a booster for Paris."

NO NEWS FROM MISSING SHOE SALESMAN

No information has been received about Robert Chilton Holmes, of Knoxville, Tenn., who disappeared at Paris, July 14, while he and Mrs. Holmes and their 4-year-old daughter, Sarah Marie, were on their way to Lexington to make their home.

Mrs. Holmes, who is residing temporarily at 223 East Main street, in Lexington, is at a loss as to his whereabouts. "He just left because he wanted to," she said when asked if she had any theory as to his disappearance. Her future plans have not been made.

Mr. Holmes, who is said to have about \$4,000 in his possession at the time he became separated from his wife and child, was last seen on the station platform at Paris. Mrs. Holmes and the child started to get on the Lexington train thinking he was following with the baggage. When she went to get on the train, he was not in sight and she came to Lexington, where the Travelers' Aid rendered her assistance.

Nine members of the Bourbon Gun Club attended the State tournament held at Louisville last Wednesday, Thursday and Friday. All report having had a fine time and having enjoyed the shoot very much. The Bourbon boys gave a good account of themselves by their shooting at the elusive targets as the scores below will show. Headed by the president, vice-president and secretary, in company with six others, they went to Louisville to get, and succeeded in getting, the 1922 State shooting tournament for Paris.

This tournament will be held some time next year, probably about the latter part of July or the first week in August. One of the Bourbon Gun Club members, J. Quincy Ward, was elected president of the Kentucky Trapshooter's League for the coming year. The next regular shoot of the Club will be held on the Club grounds in East Paris on Friday, August 5.

The following scores were made by the Bourbon members at the State tournament:

THE DROUTH BECOMING SERIOUS MATTER.

This has been one of the most trying times of the season on growing vegetables, as the sun has been scorching hot for weeks and very little rain has fallen to relieve the situation. The tobacco crop is being cut down every day and the dry weather continues. One conservative farmer stated he considered his tobacco crop cut at least ten per cent, the past week.

Even the gardens have dried up and farmers who own hundreds of acres of land were in town buying green beans from the grocers and quite a number are buying potatoes as they did in the winter season. Stock water is becoming very scarce in many localities, and the grass in pastures is literally burned brown.

Farmers say the corn crop is cut in half, the question of whether or not to prepare winter stock is confronting them, and they are not looking to the future any too hopefully.

WALLIS GIVES ALIENS THRILLING SENSATION

Tom Underwood, in his column, "Daily Jots," in the Daily Kentucky New Era, Hopkinsville, reprints a story from the New York World about a stunt Commissioner Frederick A. The article says:

"The idea behind the ice cream was to give the immigrants a real treat on their reaching the land of promise."

"What happened was a marvel to witness. The first persons served were a Balkan native and a negro from East India. He looked around and saw that the Balkan opposite him had a bigger piece. Greedily he grabbed for it. Then the fight began. Both were well smeared in the face with the food."

"The other diners touched the ice cream and finding it cold, thought they knew the trick. The stunt was to smear the cold substance on your neighbor's face. This happened several times. Then someone tasted the ice cream and with a whoop announced it was manna too precious to be wasted on countenances. The head steward said the same thing in eight languages he speaks. The face-smearing ceased abruptly."

"But the final experiment was yet to be made. The real genius of the meal took up his knife and a piece of bread and spread the new butter tenderly over it. He started the fashion with a bang and all the rest enjoyed the ice cream that way."

HENDERSON WINS STATE CHAMPIONSHIP SHOOT.

Woodfolk Henderson, of Lexington, was high gun in the Kentucky State shoot, which closed Friday at the Louisville Gun Club. Henderson, with 196 hits out of 200 targets for the two days, was closely pressed by A. B. Harris, of Louisville, who totaled 195. Below them were some of the leading shots of America.

In addition to pressing Henderson closely for honors in this event, Harris was high man for all targets shot, with 393 out of 400, and average of better than 98 per cent. Henderson was second with 390. Harris also won the handicap event with 99 out of 100 targets.

Dr. R. G. Fallis, of Louisville, captured the challenge cup with a perfect one hundred.

Several members of the Bourbon Gun Club attended, and took part in many of the big events.

LIVESTOCK NOTES

Cattle feeders of Bourbon county have sold several loads of heavy steers recently at prices ranging from 7½ to 8 cents per pound.

Many of these cattle were purchased a year ago for as high as ten cents per pound.

Prospects for next winter's feeding look very good, because feeder steers can be bought in line with the prices received for fat cattle.

At Mt. Sterling, Henry S. Caywood, of North Middletown, buyer for Swift & Co., of Chicago, bought two hundred 1,350-lb. cattle,

from Sharp Bros., of Sharpsburg, at prices ranging from seven to 7½ cents per pound.

Mr. Caywood also bought of B. T. Wright one hundred and thirty-four head, averaging about 1,350 pounds at 7½ to 7¾ cents.

W. A. Thomason purchased of A. B. Ratliff fifty 1,400-lb. cattle at 7½ cents per pound.

PARK SPECIALIST HERE

A. A. Fiske, of New York, a specialist in park planning, has practically completed a survey of proposed park lands for the city of Paris, and at a meeting of the Community Service committee held in the office of the Paris Commercial Club, Friday night, presented his recommendations.

Mr. Fiske outlined a plan of improvement of lands in and adjacent to the city of Paris, which would cover a period of several years in development. He expressed the opinion that Paris has unusual opportunities for park development, and that a progressive plan of improvement would eventually make Paris one of the most beautiful cities in Kentucky.

FIRE DEPARTMENT BUSY

Fire alarms from different sections of the city kept the fire department busy Saturday. A big pile of refuse on Second street caught fire Saturday morning, causing an alarm to be sent in. The department responded and worked several hours in an effort to subdue the blaze. After they had returned to headquarters they were recalled by a second and third alarm as the fire in the dump which had been smoldering, having broken out fresh. The department subdued the blaze and returned. Late in the afternoon they were called out again, and at night a false alarm from box 34 called them out again. About ten o'clock Sunday morning the department was called to the home of Mr. and Mrs. Lyttleton B. Purnell, on Pleasant street, where short circuit electric wires had started a small blaze. The incipient conflagration was subdued with chemicals.

"The spreading of oil and stone on the Boonesboro and Winchester road was begun on Tuesday morning, and large forces of men and the necessary machinery were engaged in the task.

"The oiling of the Paris and Winchester pike to the Bourbon county line and repairing of the same has been under way for the past week and the motorist's attention is called to the oil of the Boonesboro road in order that they may protect their cars as much as possible, as the oil is heavy and is very dangerous to fast drivers."

NEWSPAPER ADVERTISING PAYS

No more convincing illustration of the efficiency of newspaper advertising has been presented than the experience of the Literary Digest. Five years ago when the magazine had 350,000 circulation the directors decided that a larger circulation was desirable and that the only way to get it was through advertising. For four years \$1,000,000 was invested annually in 400 leading newspapers in the United States with the result that to-day the magazine has a circulation of 1,300,000, and its income has been increased more than 360 per cent.

Would it have been possible for the Literary Digest to secure such returns from any other medium? We believe not. Newspaper advertising presents its messages when people are in a receptive mood. Appearing as it does in a medium that it welcomed and read in practically every household it is bound to attract the attention of the mass of the people, and if the article advertised possesses real merit, large sales are sure to follow.

THIS WHOLE FAMILY RECEIVED BENEFITS

Six Kentucky People Are Kept In Best of Health By Taking Tanlac

"Tanlac is our family medicine and it never fails to do all we expect of it," said Daniel B. Martin, 1710 Owen Street, Louisville, Ky., foreman of the Arctic Ice Co., and Council Commander of Blue Grass Lodge No. 95, W. O. W.

"My first experience with this medicine was 5 years ago when it restored me to health, and ever since that time I have had a bottle in the house and on different occasions my wife and four children have taken it. I don't believe there is a healthier family in Louisville than mine and I give Tanlac the credit for keeping us in such fine shape. When I began taking it I was in a badly run-down condition. My food seemed to do me little or no good, my sleep was never sound and I was growing weaker and thinner every day."

"A friend persuaded me to try Tanlac and it did everything he said it would do. It just put me in the pink of condition, and ever since then when I feel a little out of sorts I take a dose of Tanlac and get right again. What I have spent for Tanlac has been too small to mention and the good my family have received from it has been worth more than money can buy. If people knew as much about it as I do every family would have it in the home."

SIGNS FOR LAUGHTER

(Topics of The Day Films)

Sign writers are alert individuals who ply their trade or shall we say art, in routine manner usually with the desired results. But, now and then amateurs trespass upon the province of the professional sign painter with varying degrees of success. An extra letter here, a comma omitted there and the words on the sign often present a message quite different from the intended idea. Many of the signs painted by "green" brush wielders are very funny in their word combinations. Such signs have been shown on the screen in "Topics of the Day" films with signs-a-plenty of audience laughter. We present some signs clipped from the press which will make you laugh, or we miss our guess:

Verse Writing Taught in School.

In Chinese schools, just before the noonday recess, the teacher writes a sentiment, a proverb, or proposition upon a slip of red paper and pastes it upon the door. Each boy as he goes out reads the lines, and in the afternoon gives to the teacher another line which, with the first, make a couplet.

SPECIAL EDITION OF OIL BOOM PAPER

THE NEWS is in receipt of a copy of the Advance-Monticelloan, a daily paper published at Monticello, Ark., sent by John F. Barbee, formerly of Bourbon county. The paper is a special edition devoted to the oil interests of Monticello and adjacent territory now being developed into a flourishing industry. The paper is profusely illustrated, and contains several pages of "write-ups" of local oil industries.

Mr. Barbee is engaged in the livestock business near Monticello, where he is conducting a big stock farm for breeding and training horses. He is prominent in the management of the Monticello Fair and the Arkansas State Fair, and making a big success of his business.

THREE FORMS OF LIME MAY BE USED ON SOIL.

There are three forms of lime which can be used to advantage on the soils of the State of Kentucky farms, according to members of the soils and crop department of the College of Agriculture. The first is fresh burned lime or ordinary lime. It requires 56 pounds of the burned lime or 74 pounds of the hydrated or water-slacked lime, and the third carbonated lime or ordinary limestone. It requires 56 pounds of the burned lime or 74 pounds of the hydrated lime to do as much good as the 100 pounds of the limestone, according to the specialists. Where it is necessary to haul long distance it may pay to use the burned lime. If 1,120 pounds of this form can be de-

livered cheaper than 2,000 pounds of finely ground limestone, then it should be used.

There is no difference in the effectiveness of the three forms, according to the specialists. Fresh lime should not be applied to green plants and furthermore is unpleasant to handle. It costs more than the ground limestone which is usually to be preferred. A farmer who has lime on his own farm can usually get it crushed for approximately \$1.00 a ton. This makes it an economical form to use.

Ashes sometimes may be obtained for the hauling and since they are one-third to one-half lime and contain a small amount of phosphorus and considerable potash, they are worth hauling as substitute for limestone. Enough wood ashes may be

used to sweeten the soil without danger.

In general the kind of lime to use is that which is easiest to obtain and most economical. Ordinarily this will be the finely-ground limestone. The pure limestone can be used anywhere, in any amount, and at any time without danger to ordinary farm crops.

Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This is not proven, but Catarrh is a local disease, it is greatly influenced by constitutional conditions.

HALL'S CATARRH MEDICINE is a Tonic and Blood Purifier, and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and restoring normal conditions.

MANY FARMERS KEEP SET OF ACCT. BOOKS.

Kentucky farmers are realizing that it is necessary to keep books in order to have a systematic and balanced business, according to C. U. Jett, extension specialist of the farm economics department of the College of Agriculture. Mr. Jett has just compiled a number of farm account schools for both men and boys in a number of counties in the State.

A report of the schools shows that 337 farmers attended the schools held for them in 16 counties. Approximately 175 boys were enrolled in the work, which was given in the agricultural departments of high schools in seven counties under the direction of Mr. Jett.

In the course of the work the men and boys were shown how to make an inventory of the farm business and how to use a special farm account book for recording the expenses and receipts of the farm business. A number of them now are keeping books on the various farm operations with the idea of balancing up the farm business and placing it on a systematic basis. Mr. Jett plans to visit them from time to time and assist them in keeping the records.

Light snow fell on July 17, 1873, so cold that winter wrappings were necessary. May 14, 1848, there was a considerable snow in Northern Kentucky. July 4, 1859, was so cold and inclement that picnic parties were compelled to return home for heavy garments and wrappings. On May 19, 1870, snow fell over the larger portion of Kentucky during the night. At Mt. Vernon, Rockcastle county, the depth of snow on the 20th was eight inches. It melted away during the forenoon. Corn knee high, in places, surrounded by snow, had a peculiar appearance. Apple trees suffered from the weight of damp snow.

**Special Sale of Coldstream Durocs**

At Coldstream Farm, August 16, 1921

This sale having been decided on, nothing is to be left undone to make it a success from the bidder's viewpoint. A goodly number of our choicest young sows will go under the hammer—beautifully bred, massive individuals, each weighing 500 lbs. or more.

The sows are all bred for early September farrowing—mostly to Walt's Great Top Col., a splendid young boar, standing, as a senior yearling, 44 inches high, on a 10-inch bone, with 83 inches over the back between the eyes and root of tail.

Terms if Desired—Terms will be arranged for those who so desire and can furnish satisfactory bank references. Remember the date—also the fact that adverse market conditions for us mean advantageous transactions for the purchaser. For particulars, address

500 ACRES OF NEW WHEAT ARE HARVESTED IN STATE

More than 500 acres of Ashland wheat, the new pedigreed strain, developed by the Kentucky Agricultural Experiment Station have just been harvested in Kentucky, according to estimates made by soils and crop specialists of the station. The acreage was divided among 32 farms in 12 counties and is expected to produce from 8,000 to 10,000 bushels of grain which will be available for seed this fall.

The new strain of wheat which has been the highest yielder at the Experiment Station farm for the last six years was developed from one head out of about 500 heads selected in 1913. In 1915 enough wheat was secured to plant three one-tenth-acre plots and the strain gradually developed from that time. The first distribution of seed from the station was made in the fall of 1910 when 50 bushels were sent out. In the fall of 1920, 300 bushels were distributed, which resulted in the crop for this year.

The Ashland is similar to all strains of Fultz in appearance. However, the straw of Ashland is somewhat stiffer than that of Fultz and slightly lighter in color. It has proved to be a consistent yielder in Central Kentucky and gives excellent results wherever Fultz wheat has been popular.

During the years from 1915 to 1920 inclusive the average yield an acre of Ashland at the Experiment Station has exceeded those of the three leading varieties of wheat in the State, including Jersey Fultz, Fulcaster and Currell's Prolific. Ashland yielded an average of 33.6 bushels, Jersey Fultz 31.1 bushels, Fulcaster 30.2, and Currell's Prolific 28.5 bushels.

CORPORATIONS MUST FILE CAPITAL TAX RETURNS

July 31 is the last day for filing returns of the federal capital stock tax, according to a statement from the Internal Revenue office. Returns are required of every domestic corporation regardless of the par value of its capital stock, and of every foreign corporation irrespective of the amount of capital employed in this country in the transaction of its business. Certain corporations, not organized for profit, are exempt from the tax. The Bureau of Internal Revenue estimates that approximately \$25,000 such returns will be filed and that the amount of revenue collected from this source will be approximately \$90,000,000.

MATRIMONIAL**GAINES—MONTGOMERY**

The principal event in Frankfort society for this week will be the marriage of Miss Elizabeth Noel Gaines to Mr. Zach Daingerfield Montgomery, which will take place Tuesday afternoon at 5:30 o'clock at the South Frankfort Presbyterian church, the Rev. Mr. Wilcox officiating. Mrs. Julian Allen, of Milledburg, will be the matron of honor and Mr. Frank Montgomery, his brother's best man. Following the ceremony Mrs. J. Howard Murray, aunt of the bride, will entertain a company of twenty at dinner for the bridal couple.

SHUMAKE—PACHEO

Announcement of the marriage on July 19 of Miss Merle R. Shumake, of Trevilians, Virginia, and Mr. Alvin E. Pacheo, of Newport, Rhode Island, has been received here. The ceremony occurred at the Presbyterian manse in Miami, Florida, the Rev. Willis O. Garret, officiating.

Mrs. Pacheo will be remembered here as a graduate nurse of the Masonic Memorial Hospital, at which institution she was considered a very capable and efficient member of the nursing staff. She was an unusually attractive young lady, and possessed many of the fine qualities found in the native Virginian.

After a trip to her former home and to Newport the young couple will reside in Washington, D. C.

FRANK—KELLEY

The wedding of Miss Elizabeth Taylor Frank, daughter of Dr. and Mrs. Louis Frank, of Louisville, and Mr. Frank J. Kelley, Jr., of Chicago, will take place Thursday afternoon, August 4, at the Calvary Episcopal church, in Louisville, the Rev. Harris Mallinckrodt officiating. Miss Carolyn Frank will be her sister's maid of honor. The bridesmaids will be Mesdames William Huey and Selby Frank.

Mr. Lawrence Kelley, of Chicago, will be his brother's best man, and the ushers will include Dr. Wallace Frank, Maj. Selby Frank, U. S. A., William Huey and Lewis Kaye.

The ceremony will be followed by a reception at "Pine Top," the summer home of the bride's parents, on the Manslick Road, near Louisville.

The bride-elect is a remarkably handsome young woman. She is a niece of Mr. Robert L. Frank and Mr. Julian Frank, of Paris, and Dr. Ben Frank, of New York.

EVANS—MCMILLAN

The engagement of Mr. Charles Aurell McMillan, of Paris, and Miss Katherine Evans, of Fairfield, East Moriches, New York, has been given public announcement by the bride-elect's mother, Mrs. Thomas Evans, of Fairfield. The marriage will take place at the Evans home, in Fairfield, on Tuesday evening, August 9, at seven o'clock. They will be at home after October 1, on Mt. Airy avenue, in this city.

The bride is a very handsome and talented young woman, a native of Nicholasville, and is a graduate of Bryn Mawr College, and of Columbia University. She was awarded her M. A. Degree in chemistry last year at Johns Hopkins University, in Baltimore, where her father was formerly Professor of Chemistry. She did service for the Red Cross in Europe during the World War, and was abroad when engaged by cable to take a position as teacher of chemistry and biology in the Paris High School. She has a host of friends in Paris and throughout the Bluegrass region:

Mr. McMillan is a successful member of the Bourbon county bar, whose intellectual attainments and legal lore have made him one of the foremost attorneys of the county.

Hewas for four years County Judge of Bourbon county, County Attorney, and also Master Commissioner of the Bourbon Circuit Court,

in all these positions discharging their high duties honestly, faithfully and most capably, winning the high regard of all classes.

During the World War he was chairman of the Bourbon County Draft Board, a position he filled with credit and honor.

He is a son of Mrs. Sallie McMillan and the late Dr. J. T. McMillan, a brother of Dr. R. R. McMillan and Mrs. Jos. Varden, and a nephew of Hon. Wm. H. McMillan, former dean of the Bourbon county bar.

The following invitations have been issued to friends and relatives of Miss Evans and Mr. McMillan:

MONTGOMERY FAIR CLOSES

The Montgomery County Fair closed Saturday with a record-breaking crowd in attendance. Increased interest was taken this year in the fair, which proved to be one of the best in many years.

There was a large attendance from Paris and Bourbon county, attracted mainly by a high-class racing program given daily. Among the winners at the fair was Our Alice, owned by Barry Meehan, a young linotype operator on the Lexington Herald. Bourbon county people also figured in the list of awards.

KING

The body of John King, overseas veteran in the World War, who was killed in action in one of the battles in France, arrived in New York last week, and was sent to his old home at Moreland, Ky., arriving there Thursday. He was a brother of Mrs. Ada Fishback, and uncle of Mrs. Milton J. Stern and Mrs. Clyde Huffman, of Paris. The funeral was held at Moreland, Saturday, military honors being paid at the grave by the American Legion. Mrs. Fishback attended the funeral and burial.
